OBJECTIVE

To secure a responsible career opportunity in a reputable organization to fully utilize my skills, and gain experience along with knowledge as a fresher, I look forward to learning new technologies and making a significant contribution to organizational progress.

PROJECTS

Portfolio 🔗 | HTML, CSS, JavaScript *April 2023*

A responsive personal website

Used HTML and CSS styling properties like flex-box, media queries, forms etc., with functional contact form where customer queries can be post. JavaScript basics are used to make it functional.

Your Country Guide 🔗 | *May 2023*

HTML, CSS, JavaScript, REST countries API

A Responsive Countries' Information database website

Used JavaScript to implement REST Countries API to collect information of any valid country like capital, continent, population, currency, common language(s) which is searchable anytime.

Target users: Students, Researchers, Tourists.

U - Calculate 🔗 | Python, Tkinter *June 2023*

GUI-based simple calculator

Using the Python module Tkinter, which can perform basic arithmetic operations like addition, subtraction, multiplication, and division.

Quick-Handles 🔗 | HTML, CSS *March 2023*

Responsive and minimally designed quick-links website

Basic HTML and CSS styling properties used to design website which can be accessed anytime to reach out to my social and professional handles like GitHub, LinkedIn, Twitter etc.
